EXECUTIVE SUMMARY [linkedin.com/in/raamvignesh](https://www.linkedin.com/in/raamvignesh)

Entry-level Full-Stack Developer and Data Analyst pursuing B.Tech in AI & DS. Hands-on experience building responsive web applications using DHTML React.js, and Node.js, with practical exposure to Power BI and Excel for data analysis. A fast-learning, execution-focused who enjoys building real, usable products rather than just academic projects.

SKILLS

- Data Analysis
- UI / UX Design

PROJECTS github.com/raamvignesh

KEC CONNECT – Campus Communication Web App

HTML, Node.js, CSS

- Designed and built a full-stack web app that replaced scattered campus updates with a single, organized communication system.
- Developed backend services in Node.js to manage dynamic content updates efficiently.

ZERO SIZE – Wellness Website

HTML, CSS, JavaScript

- Designed and developed a responsive wellness website focused on customer enquiries.
- Implemented lead forms and WhatsApp contact for real- world business usage.

SALES PERFORMANCE DASHBOARD

Power BI, Excel

- Built an interactive dashboard to analyze sales, profit, and monthly trends.
- Cleaned datasets and generated basic insights for business decision-making.

RESUME BUILDER - Download resumes in PDF format.

MERN Stack

- Resume Builder is a powerful and intuitive full-stack web application that allows users to effortlessly create, customize, and download professional resumes in PDF format.

INNOVATIX – Event Registration Platform

HTML, CSS, JS, Google Forms

- Developed a web-based event registration system for a college club.
- Ensured smooth participant registration and structured data collection.
